WORK EXPERIENCE

Training Front-End developer, IX coders 8-2024 | 11-2024

I was trained by a company IX Coders in front-end development (React js)

Frontend Development Instructor

[Ousos Center] – [Damascus] – [06/2025]

Designed and delivered a comprehensive "Frontend Development from Zero to Professional" course, covering HTML, CSS, JavaScript, and modern frameworks (React js). Developed structured learning materials, provided hands-on coding exercises, and guided students through real-world projects, enabling them to build fully functional, responsive web applications

Volunteer Organizer – Syrian Virtual University Programming Contest

Collaborated with the organizing team to plan, coordinate, and execute the official programming contest of the Syrian Virtual University. Assisted in event logistics, participant support, and ensuring smooth competition operations

IT Support, Arab International University (AIU) 3-2023 – Until now

I work as a technical support officer at the Arabic International University responsible for hardware, software and network

Business development manager, UNDB, Kensington Academic pathways 6-2024, 9-2024

KAP London awards this Certificate of Attendance to rawad altari for valuable participation in the Startup Journey program

KAFO-CAR App, UNDB, Kensington Academic pathways 6-2024 , 9-2024

startup marathon with UNDB an organization in the application of car maintenance on the road

Front-End in mostql freelancer | 01- 2021

EDUCATION

Bachelor Degree in Information Technology Engineering

Specialization: AI & Machine Learning (Syrian Virtual University)

COURSES

- Front-End developer Html css js react js, new horizons center | 04-2020 | 01-2021

- English Language Course – Milestone Institute

Started an English language course at Milestone Institute in August 2025 to enhance communication and professional language skills.

- Machine Learning Online Course

Completed a 2-month online Machine Learning course under the mentorship of Eng. Hesham Assem, covering core ML concepts, algorithms, and practical applications

PROJECTS

- **Breast Cancer Prediction Web Application**

Developed a web-based application that predicts breast cancer risk in women using Artificial Intelligence and machine learning models. Implemented data preprocessing, model integration, and an intuitive user interface to provide accurate, user-friendly health predictions.

Technologies Used:

React js, Tailwindcss, java scripts,Python,Axios-Api,Netlify

- **TeachLearn Academy – E-learning Web Platform**

Developed a comprehensive e-learning web platform specializing in Information Technology courses, featuring three dedicated dashboards for **Admin**, **Student**, and **Instructor** roles. Integrated AI-powered course recommendation system and an intelligent chatbot to enhance user engagement and personalized learning experiences

Technologies Used:

React js, Tailwindcss, java scripts, Python,Axios-Api, Netlify,Asp.netcore

- **landing page Animation:**

An integrated project designed to fit all screen sizes. Animation was used to give beauty to the project.

Technologies Used:

React js, material ui, css, java scripts

-  **Ecommerce online store:**
Online store sells laptop mobile headphones Responsive to all screens Available in dark mode
Technologies Used:
React js, material ui, css, java scripts, php laravel
-  **portfolio for Human:**
A site used to introduce people or companies and the skills they offer.
It can be used by people as a CV or benefited from as a business project such as a coach in a sports club.
Technologies Used:
Html5, Css3, JavaScript, Reactjs, Bootstrap
-  **Bundi:**
Project modern Responsive to all screens
Technologies Used:
Html5, Css3, JavaScript, Bootstrap
-  **Pet Shop:**
Online store Responsive to all screens dedicated to selling pet supplies and food
Technologies Used:
Html5, Css3, JavaScript, Bootstrap, php laravel
